

# PLC110

## Weighing Indicator&Transmitter

### Dimension(in mm)

### Features

- Small volume, unique design, easy operation
- Applicable to all resistance strain bridge weighing sensors
- Automatic zero -tracking
- Serial communication interface: RS232 or RS485
- The plastic housing can be mounted on DIN rail

### Specifications

Power Supply	DC12-24V
Working Temp.	-10°C -40°C
Output range	0.1 $\mu$ V/d
Sensor excitation	DC 5V 200mA
Consumption power	MAX 6W
A/D Conversion	Sigma-Delta
Output	RS485
